Introduction

POB Trust is a registered charity organization working for the prevention & treatment of blindness with in Pakistan and across the globe.

Focusing the main causes of avoidable blindness we are providing free of cost community based, diagnostic & surgical services in remote and deprived areas. Other than the services of outpatient examination and cataract surgeries with IOL implantations POB Trust is also making efforts for the human resource development through professional training and motivation.

We extend our services for all the human beings in any area of the world irrespective of race, religion, gender, locality and community with a firm commitment of services without any discrimination.

We are looking for the individuals, NGOs and Government agencies to collaborate for the elimination of avoidable causes of blindness.

Our Vision

“A world in which no one is needlessly blind and where those with unavoidable blindness can achieve the full potential of life”

Our Mission

“To work for the elimination of the avoidable causes of blindness regardless of religion, ethnicity, gender and nationality of our beneficiaries”
